Profile Summary

AWS Certified Solutions Architect - Associate with hands-on experience building and automating cloud infrastructure on AWS. Skilled in Kubernetes (EKS), Terraform, Docker, and CI/CD pipelines using Jenkins and GitLab CI to develop scalable and efficient DevOps workflows. Experienced in creating production-like environments using Infrastructure as Code, container orchestration, and monitoring with Prometheus and Grafana. Strong Linux foundation with a focus on cloud-native architectures, automation, scalability, and system reliability.

Education

KDK College of Engineering

Nagpur, Maharashtra

B.Tech in Electronics and Telecommunication Engineering — CGPA: 7.22

2021 – 2025

Experience

Cloudnautic

June 2025 – December 2025

DevOps Intern

Pune, Maharashtra

- Deployed AWS infrastructure (EC2, VPC, IAM, RDS, ALB) for scalable environments.
- Built CI/CD pipelines using Jenkins and GitLab CI to automate deployments.
- Containerized applications with Docker and deployed on Kubernetes (EKS).
- Provisioned infrastructure with Terraform and set up monitoring using CloudWatch, Prometheus, and Grafana.

Technical Skills

Cloud & DevOps: AWS (EC2, VPC, IAM, S3, RDS, EKS, ALB, Auto Scaling, Lambda, CloudWatch), Terraform

Containers & Orchestration: Docker, Kubernetes

CI/CD & Automation: Jenkins, GitHub Actions, GitLab CI, ArgoCD

Monitoring: Prometheus, Grafana

Programming: Bash

Security: Trivy, OWASP Dependency Check

Version Control: Git, GitHub

Operating Systems: Linux

Projects

FoodOps – GitOps on AWS EKS  | AWS, EKS, Terraform, Jenkins, ArgoCD, Docker, Kubernetes

- Built GitOps CI/CD pipeline using Jenkins and ArgoCD for automated deployments.
- Containerized application using Docker and deployed on Kubernetes (EKS).
- Provisioned infrastructure using Terraform with modular configurations.
- Implemented monitoring and security scanning for improved observability.

RedBus – DevOps Platform  | AWS, EKS, Terraform, Jenkins, Docker, Kubernetes

- Designed and deployed production-like infrastructure using Terraform and AWS.
- Built CI/CD pipelines using Jenkins for automated deployments.
- Containerized applications using Docker and deployed on Kubernetes.
- Configured auto-scaling and monitoring using Prometheus and Grafana.

Certifications

- AWS Certified Solutions Architect Associate - Amazon Web Services
- DevOps Training Program - Ethan's Tech
- AWS Cloud Training Program - Ethan's Tech
